As a major guideline it is proposed to make the poster intelligible in itself. It is suggested to divide the contents of each poster into **introduction, results** and **conclusions**, with a summary listing the pertinent results and conclusions.

The **minimum size** should be:

- 20 cm for graphs;
- 3 cm for the paper's title and the names/addresses of the authors in the heading lable;
- 1,5 cm for sections headings such as introduction, results, labelling of figures and tables;
- 0,8 cm characters in height for further text.

Line spacing: 1,1 cm at minimum; 10 of such lines correspond to one figure.

Please use colours, symbols and schemes for improved clarity.
